

Analytics at Every Level

Role-based insight connects platform health, company performance, and individual learner growth.

ANALYTICS PATH

PLATFORM > COMPANY > SUBJECT PACK > LEARNER

PLATFORM OVERSIGHT

Super Admin

See the full platform, compare companies, and follow performance from the broadest trend to one learner.

PLATFORM SNAPSHOT

- Total and active companies
- Total learners and active learners in the last 7 days
- Activity today, in 7 days, and in 30 days
- Case attempts, test questions, and combined accuracy
- Tests started and completed
- Company rankings

COMPANY DRILL-DOWN

- Company identity and industry
- Learners and assigned subject packs
- Attempts, questions, and test completion
- Company accuracy
- Subject-pack performance

DEEPER DRILL-DOWNS

- Subject pack: learners, activity, and accuracy
- Subject pack: saved, open, and resolved reviews
- Subject pack: resolution rate and weakest test objectives
- Learner: combined, case-study, and test accuracy
- Learner: attempts, trends, and review status
- Learner: weakest objectives and completed test sessions

ORGANIZATIONAL INSIGHT

Company Admin

Turn learner activity into practical decisions for one organization and its assigned subject packs.

COMPANY OVERVIEW

- Total learners and recently active learners
- Assigned subject packs
- Case-study and test activity
- Accuracy and mastery indicators

CASE LEARNING ANALYTICS

- Remediation success rates
- Recurring misconception patterns
- Saved-review queue and review activity
- Signals that show where intervention is needed

TEST ANALYTICS AND SCOPE

- Weakness rankings by concept and objective
- Test activity and completion patterns
- Performance by selected subject pack
- Company-specific visibility for its learners and assigned content

PERSONAL GROWTH

Learner

Understand current performance, recognize patterns, and focus effort where it will matter most.

PERFORMANCE AT A GLANCE

- Combined accuracy across learning activities
- Case-study accuracy
- Test accuracy
- Attempts and completed activity

TRENDS AND REVIEW

- Performance changes over time
- Strongest concepts and objectives
- Weakest concepts and ranked improvement areas
- Saved, resolved, and unresolved review cases
- Progress through targeted practice

TEST INSIGHTS

- Completed test sessions and results
- Objective-level weaknesses for focused study
- A personal view designed for the learner - not an administrative dashboard

One engine. Three levels of insight.

From broad trends to individual learning needs, every role gets the clarity to act.

Role-specific access keeps analytics relevant, focused, and securely scoped.
